Oplossingsstrategieën

- Heb ik dit probleem eerder meegemaakt?
- Ken ik een soortgelijk probleem?
- Ken ik een strategie waarmee dit probleem opgelost zou kunnen worden?

Wiebe de Vries

Wat willen we

www.doczero.nl

Los op !

- ◆ Ga in groepjes van 5 naar dit slachtoffer:
- ◆ Ga na wat er aan de hand is.
- ◆ Inventariseer jullie ideeën op een flip-over en maak een afspraak wie straks gaat presenteren in de groep
- ◆ Welke oplossingen zijn er?
- ◆ Wat is de beste oplossing?
- ◆ Probeer deze uit te voeren.
- ◆ Wat was het resultaat?

Hoe een elektromotor werkt

The diagram illustrates the internal components of an electric motor. A central coil of wire is positioned between the North and South poles of a field magnet. The coil is connected to a commutator, which is in contact with brushes. These brushes are connected to a battery, labeled 'To Battery'. A blue curved arrow indicates the direction of rotation. Labels include 'NORTH', 'SOUTH', 'Field Magnet', 'Commutator', 'Brushes', and 'To Battery'. A small '©21' is visible near the motor image.

Effect

- ◆ Consolidatie: 30-45 dagen (hippocampus)
- ◆ Re-consolidatie 48 uur

The illustration shows a spiral-bound notebook or calendar with a grid pattern on the pages, resting on a red folder or stand.

BLS/AED manual

Shout for help

- ▶ If someone else is nearby, ask him to assist, so you may reach his assistance.
- ▶ If you are alone, shout loudly to try and attract attention but at the same time do not leave the victim.

Open airway

In an unconscious victim the tongue may fall back to block the airway. The airway can be opened by tilting the head back and lifting the chin which draws the tongue forward away from the back of the throat.

- ▶ Turn the victim on to his back. Place one hand on his forehead and gently tilt his head back.
- ▶ Lift the chin using two fingertips of your other hand under the point of the chin.
- ▶ These combined actions will open the airway.

European Resuscitation Council ©

Stand clear

- ▶ Stand clear during analysis.
- ▶ Ensure that nobody touches the victim, including the ECG in analysing the heart rhythm.

Deliver shock

- ▶ If a shock is indicated:
 - ensure that everybody is clear of the victim.
 - press shock button as directed.

BLS/AED manual

- ▶ With your other hand, grasp his far leg just above the knee and pull it up, keeping the foot on the ground.
- ▶ Holding his hand pressed against his chest, pull on the far leg to roll the victim towards you onto his side.

- ▶ Adjust the upper leg so that both the hip and knee are bent at right angles.
- ▶ Tilt the head back to make sure the airway remains open.
- ▶ Adjust the hand under the cheek, if necessary, to keep the head tilted.
- ▶ Check breathing regularly.

World of Warcraft

Wiebe de Vries

Hoe aanbieden

The slide features a red vertical bar on the left with the 'doczero' logo. The main content area is light gray and contains the title 'World of Warcraft' in purple. Below the title are two screenshots from the game: one of a character in a stone archway and another of a character in a desert environment. A chat window is visible in the bottom left of the second screenshot. The name 'Wiebe de Vries' is in the bottom right, and a pink bar at the bottom contains the text 'Hoe aanbieden'.

Animaties en agents

The slide features a red vertical bar on the left with the 'doczero' logo. The main content area is light gray and contains the title 'Animaties' in purple. Below the title are two bullet points: '◆ Eerst zien' and '◆ Dan voice-over'. To the right of the text is a 5x5 grid of squares with varying shades of gray and black, representing an animation sequence. The name 'Wiebe de Vries' is in the bottom right, and a pink bar at the bottom contains the text 'Animaties en agents'.
